

STEEL BLUE ARGYLE COMPOSITE ZIP 317532

DESCRIPTION

One of our most popular styles, the Argyle® Zip is now available with a Composite Toe Cap. The Argyle® Zip Composite is a Men's Ankle Boot with padded collar and tongue for all day comfort. Our lightweight Composite Toe Cap's are a non-metallic alternative to Steel Toe Caps.

Our Argyle® Zip Composite safety boots are great for FIFO and other workers that need to move through security work environments regularly. Composite Toe Caps are Airport Friendly, can be x-rayed, won't rust and also insulate against heat and cold.

Including laces to ensure a secure and comfortable fit, this safety boot features an industrial grade side zip for convenience. The TPU Outsole of the Argyle® Zip Composite is heat resistant to 130°C and offers Anti-Static properties.

Available in Black or Wheat premium Water-Resistant Leather, the Argyle® Zip Composite features our Trisole® Comfort Technology which works to cushion your feet, knees, hips and lower back from day-to-day fatigue.

The first step to better body health

Endorsed by:

The only Aussie safety boot endorsed by the APA.

Steel Blue work boots help protect you from stress-related injury to the ankles, knees, hips and spine.

COMPOSITION

The Materials

Full Grain Leather & Nubuck Leather

Each Leather is specifically chosen to ensure the style of boot is fit for purpose and is ethically and environmentally sourced from members of the Leather Working Group (LWG).

Baltico® Lining

A soft, non-abrasive, hydrophobic material that wicks perspiration away from the foot, enabling the skin to remain cool and dry.

Ortho Rebound® Footbed

Our patented Ortho Rebound® Footbed is uniquely designed to reduce foot fatigue. Made from high quality Polyurethane, it always retains its shape and thickness to ensure support from heel to toe, is antifungal, and the high wicking material keeps your feet cool and dry.

Poron

Strategically placed high-tech Poron® pads are placed in the sole and under your foot's peak stress areas. We included Poron® in our Trisole® Comfort Technology, which is now the benchmark for safety boots.
